² Ukraine: Situation Report, 12 May 2022

Needs expressed by M4EG members

Out of the 144 members of the M4EG network in Ukraine, **70 responded.**

33 potential members from Zakarapttia Oblast also requested assistance.

TESTIMONIALS

"What the war did with Trostianets is a nightmare. Everything is damaged – health centers, dozens of houses, private buildings, and critical infrastructure. Trostianets was liberated, and we will rebuild it even better because Trostianets was always a flagship city in Sumska Oblast. We need our partners' support as never before. Our needs vary drastically since all the economic sectors were affected,"

Volodymyr Zlepko

Deputy Mayor for economic development, budget planning, investment attraction, trade, small and medium-sized businesses, communal property management, land regulation, Trostianets, Sumska Oblast

"Lvivska Oblast hosts internally displaced persons from all over Ukraine, as most of the western regions do. People require support and coordination, and it relates to access to basic needs and living infrastructure. We are thankful to the M4EG Facility for providing support. We continue to work and address the rising needs. There is a fuel shortage; enterprises are moving to the region, health facilities are hosting wounded civilians and combatants, and a vast number of people who fled eastern Ukraine now don't have where to come back and need accommodations. The 'surviving' phase steps into the 'development' phase. Now human resources involved during the first two months are almost exhausted, and we need to put a proper planning and strategic approach,"

Maksym Terletskiy

Institute of City, Lviv, Lvivska Oblast

Aims of the M4EG rapid response in Ukraine

15 M4EG MEMBERS

with improved emergency response and stronger capabilities to respond to socio-economic issues

10,000+ IDPS SUPPORTED

Emergency assistance, social protection and employment support services

- 30 portable sets of medical equipment with telemedicine features, with training component (for 23 municipalities, procurement ongoing).

Volunteers scheme in municipalities

In the third month of the conflict, how to help the many volunteers to continue their vital role in crisis centers?

30 volunteers in 26 municipalities are selected and contracted under the United Nations Volunteers (UNV) Community Volunteers modality to provide support over a period of 3 months with the possibility of extension. These volunteers will/are working closely with municipal and regional authorities to support crisis coordination, including mobilization and distribution of humanitarian aid to war-affected local populations and IDPs, including food and non-food items, accommodation of IDPs, provision of basic services Partnership and support provided by the UNV Coordinator in Ukraine.
