## TESTIMONIALS

*"What the war did with Trostianets is a nightmare. Everything is damaged – health centers, dozens of houses, private buildings, and critical infrastructure. Trostianets was liberated, and we will rebuild it even better because Trostianets was always a flagship city in Sumska Oblast. We need our partners' support as never before. Our needs vary drastically since all the economic sectors were affected,"*

### Volodymyr Zlepko

Deputy Mayor for economic development, budget planning, investment attraction, trade, small and medium-sized businesses, communal property management, land regulation, Trostianets, Sumska Oblast

*"Lvivska Oblast hosts internally displaced persons from all over Ukraine, as most of the western regions do. People require support and coordination, and it relates to access to basic needs and living infrastructure. We are thankful to the M4EG Facility for providing support. We continue to work and address the rising needs. There is a fuel shortage; enterprises are moving to the region, health facilities are hosting wounded civilians and combatants, and a vast number of people who fled eastern Ukraine now don't have where to come back and need accommodations. The 'surviving' phase steps into the 'development' phase. Now human resources involved during the first two months are almost exhausted, and we need to put a proper planning and strategic approach,"*

## Volunteers scheme in municipalities

**In the third month of the conflict, how to help the many volunteers to continue their vital role in crisis centers?**

34 volunteers in 29 municipalities working closely with municipal and regional authorities to support crisis coordination. That includes mobilization and distribution of humanitarian aid to war-affected local populations and IDPs, namely food and non-food items, accommodation of IDPs, and provision of basic services. Partnership and support provided by the UNV Coordinator in Ukraine.
